

Hämodialyse-Masterclass Modul 1 Vienna 24-26 th Jan. 2025

“VOLUME FIRST” – WHERE DO WE STAND		
	<p>Veranstaltungsort: MedUni Wien</p> <p style="text-align: center;"><i>Jugendstilhørsaal</i></p> <p>Spitalgasse 23, 1090 Vienna</p>	
Time, Focus	Chairs, Speaker	Talks, Issues
Friday, Jan 24th, 2025 11 am METHODS AND...	Rainer Oberbauer Joachim Beige, Manfred Hecking	Welcome on behalf of MedUni Wien Welcome on behalf of Program Coordinators
	David Keane, Galway	Volume Assessment Overview
	Yuri Battaglia, Verona	Lung Ultrasound
	Rainer Oberbauer, Vienna	Kt/V and Co
	Peter Krisper, Graz	More convection for all dialysis patients? Barriers for high volume hemodiafiltration in daily practice
	Alexander Kirsch, Graz	More convection for all dialysis patients? HDx – the poor man's hemodiafiltration?
	Gaetano Alfano, Emilia-Romagna	Biompedance and BNP in peritoneal dialysis patients
	Pantelis Sarafidis, Thessaloniki	ABPM use for hypertension management in dialysis; Lung Ultrasound use in dialysis: what can we improve by using it
	Christopher Mayer Vienna	Blood Pressure & Pulse Wave Analysis: Theory
	Simon Krenn, Vienna	Blood Pressure & Pulse Wave Analysis: Practice
	Sebastian Mussnig, Lon/ON	Target Weight – Our “Closing the Loop” Experience (including ‘long itch’ basics)
Casper Franssen, Groningen	HD-induced hypovolemia and its effect on major organs	
2:00 – 3:00 pm		Lunch break
3 pm IMPROVEMENT	Christopher McIntyre, Lon/ON	Euvolemia; what does that mean in a HD patient and why do we want it?
	Andreas Vychytil	Fluid Elimination in PD
	Elias Stix, Vienna	Obesity burden / GLP1RAs in HD
	David Keane, Galway	NN
	Christopher Mann, Vienna	SGLT2 Inhibition Without Kidney Function
	Thomas Zelniker, Vienna	SGLT2 Inhibitor Trial Design Across the Cardio Kidney Metabolic Spectrum – Issues & Opportunities
	Markus Pirklbauer, Innsbruck	Dialysis in Patients with extreme electrolyte disturbances (Focus on Potassium & Sodium)

	Manfred Hecking, Vienna	Dialysate Sodium Prescription – Recent Developments
	Vincent Rathkolb, Vienna	Patient Reported Opinions Regarding Fluid Overload versus Interdialytic Weight Gain: A Qualitative Interview Study
	Joachim Beige, Leipzig	Patient Perspectives regarding Fluid Management
	Christopher McIntyre, Lon/ON	Hemodialysis has lousy outcomes: complex intervention for a complex problem
6 pm		Snacks (no official dinner)
7 – 9 pm		Sounds and Science Concert at MedUni Vienna
Saturday, Jan 25th		
Practices of volume determination		
11 am	Sebastian Mussnig, Manfred Hecking	Bioimpedance: Which Device, When, How Often
12 am	Sebastian Mussnig, Simon Krenn	Absolute and Relative Blood Volume – How to Monitor Dialysis Session
Break 1 – 3 pm		Including a 1 hour 30 minutes guided walking tour through the center of Vienna for interested participants
3 pm	Yuri Battaglia Christopher Mann Alexander Kirsch	Lung Ultrasound, Echo, Vena Cava, Nursing Scores
4.00 – 4:30 pm	Allison Jauré, Sydney	Harnessing the patient voice to transform research and care in haemodialysis
4:30 – 5:15 pm	JJ Carrero, Stockholm	Can observational studies inform clinical decisions in Nephrology? Experiences from the SCREAM project
Sunday, Jan 26th		
9 am	Roberto Pecoits-Filho, Ann Arbor	Volume Status and Outcomes in the DOPPS
	Giorgina Piccoli, Le Mans	Incremental dialysis: back to the future!
	Massimo Torreggiani	The INCREDIBLE project (incremental dialysis and diet)
	Laura	The PRECEDE (on post preeclampsia and CKD) cohort: merging routine and research
	Jascha Amenitsch, Graz	Isolated ultrafiltration to prevent IDH – any use? – talk and project
	Manfred Hecking, Vienna	What exactly to ask patients? – an ongoing project at KfH
	Luis Naar, Vienna	Long itch and future projects
	Amelie Kurnikowski, Vienna	RAS in Hemodialysis – talk and project
	Janosch Niknam, Vienna	Weighing project – past and present
	Josef Fürst, Vienna	Project
	Other Course Participants	(Other) Project Discussions
1 pm		Meeting Adjourn
